

Good Afternoon South Raider Families,

Today I am calling with a few reminders and updates.

I want to inform our school community that we did have another case at the high school, this case is related to an out of school exposure. The individual who was identified as a close contact was notified and is quarantined. Parents please know that we are following the guidance that has been provided by the health department, if we identify your child as a close contact, you will either hear directly from myself, the administration or our school nurse.

We ask our families to ensure they communicate through our attendance line or school nurse if there are any COVID relate concerns while we are not in school.

As a reminder, if anyone in the household is tested or is positive then the entire family is to remain home either until negative results are received or the quarantine time has been completed. As mentioned prior we have been very successful within our building, as the students and staff are following all guidelines. However, we need your support to continue to be responsibly safe outside of school.

I want to also remind our families that our Spring Break begins tomorrow, April 2nd and extends throughout next week. Students are expected to return on April 12th.

Thank you and I hope you all have a wonderful spring break!
